## Given feedback

|    |   |
|----|---|
|    | I gave these three tips to Eduardo Wibe(name fellow student): |
| #1 | Add pictures, fill in the space                               |
| #2 | Add more school-related project                               |
| #3 | Make the page more interactive                                |

|    |   |
|----|---|
|    | I gave these three tips to Lenka (name fellow student):   |
| #1 | I advised her to adjust the position of the footer (work experience, skills, education) – to make it stay at the bottom of the screen while scrolling down.       |
| #2 | Modify the “my projects.” Button’s design (remove the border/change the position,...).  |
| #3 | I advised her to adjust the position of the footer (work experience, skills, education) – put it to the center of the screen, put the options next to each other. |

|    |  |
|----|--|
|    | I gave these three tips to Fara (name fellow student):   |
| #1 | Add more pages, some more picture  |
| #2 | Remove some text, or share it on different pages, highlight some main text, users wont read too much |
| #3 | Add hobbies, highlight your favorite things  |

### Received feedback & improvements

|    |   |  |
|----|---|--|
|    | I got these three tips from Eduardo Wibe (name fellow student): | Based on that tip I made this improvement:                       |
| #1 | Add school work/projects  | Based on this tip I added a section for school work and projects |
| #2 | Add work experience even if not related to UX                   | I added work experience under the “skills” page                  |

|    |   |  |
|----|---|--|
|    |   |  |
| #3 | Fill the gray spots. Add strengths, soft/hard skills maybe?<br>-in the skills section | I filled in the gray spot with projects in the artwork setting<br>I added my moodboard to showcase my soft / hard skills |

|    |  |  |
|----|--|--|
|    | I got these three tips from Lenka (name fellow student):   | Based on that tip I made this improvement:     |
| #1 | She gave me an advice to add something creative to the website (decorate, make some sections more visible/ interesting)            | Based on this, I modified the navbar           |
| #2 | She told me to consider adding a section about the school projects and a contact section.  | I added school projects section                |
| #3 | She advised me to adjust the layout in the "Skills" section, (fill in the grey space, work on making it easier to go through,...). | I filled in the space under the skills section |

|    |   |   |
|----|---|---|
|    | I got these three tips from Fara (name fellow student): | Based on that tip I made this improvement:                      |
| #1 | She gave an advice to add more color                    | Based on this, I added decoration to the navbar                 |
| #2 | Add more picture, make the text symmetry with picture   | Based on this I added picture on the main page next to the text |
| #3 | She advised to add more whitespace                      | Based on this I added more whitespace on some rows              |
